

A Three-Step Approach to Creating Healthier Spaces

An industry-defining standard of cleaning and disinfection

As your facilities return to normal occupancy levels, providing peace of mind is vital. There is a heightened sense of scrutiny for demonstrating that you are doing your part to provide clean, healthy, and safe environments. The ABM EnhancedClean™ program is a three-step approach that delivers healthy spaces with a certified disinfection process backed by experts.

We help clients to return safely, navigate change, and deliver assurance by demonstrating trustworthy cleaning and disinfection. We do so through consistent intervals of frequent high touch point and broad disinfection, all delivered by a reliable partner dedicated to innovating ways to create healthier spaces. Our certified process is developed in partnership with our EnhancedClean Advisory Council, which includes board certified experts in infectious disease and industrial hygiene.

The Right Step for the Right Time

Complement Existing Cleaning Service Standards with Frequent Disinfection

Every building is unique, but what all facilities have in common is the ongoing need for preventative practices and regular disinfection to improve the health and wellness of the building and its occupants.

We can help you meet the evolving challenges of reentry and ongoing facility services, supplemented by broad disinfection technologies to cover every angle of building wellness.

	Suggested Frequency	Methods Employed	Team Members Deployed	Potential Supplies and Equipment
Step 1: Return Safely Build trust that it's safe to return to your space.	Intervals based on reentry	<ul style="list-style-type: none"> Pre-opening site assessment(s) using reentry checklists to inform return to work strategy Workforce protocols (i.e. PPE & social distancing procedures) Implement preventative products strategy One-time enhanced clean 	Certified disinfection specialists	<ul style="list-style-type: none"> No touch fixtures, dispensers & door openers Centralized trash receptacles Sensor technologies Hand-sanitizing stations (based on availability) Disinfecting wipes for occupants (based on availability) EPA-registered disinfectants qualified for use against SARS-CoV-2
Step 2: Frequent High Touch Disinfection Instill confidence that a recurring cleaning and disinfection program is in place.	Intervals range from hourly to daily	<ul style="list-style-type: none"> Site-specific SOW for each facility type based on occupancy levels Cleaning and disinfection of all high touch point areas in facility 	Certified disinfection specialists	<ul style="list-style-type: none"> Occupant Communication Kits EPA-registered disinfectants qualified for use against SARS-CoV-2 Proper PPE Microfiber program
Step 3: Broader Disinfection Reset your full facility to higher standards beyond high touch point cleaning.	Intervals range from nightly to quarterly	<ul style="list-style-type: none"> Large area disinfection 	Certified disinfection specialists	<ul style="list-style-type: none"> Electrostatic sprayers Hospital grade EPA-registered disinfectants with faster kill time and broader pathogen spectrum if an outbreak has occurred in your facility <p>Continued product testing:</p> <ul style="list-style-type: none"> Testing and validation UV devices and UVC lighting
